> Technologies: ML | DL | NLP | TensorFlow | Pytorch
> Tools: Colab | PowerBI | Matlab | phpMyAdmin
> Interests: Big data | Cloud Computing | Gen AI

Experience

Wateen Telecom Limited
Machine Learning Engineer
March 2024 - Present (2 months)
Lahore, Punjab, Pakistan

Sample Project:

--* Face Detection and Recognition for Automatic Attendance System *--

> Integrated VGG16 and YOLO models for effective face detection.

> Utilized U-Net for detailed facial feature segmentation.

> Applied advanced feature extraction techniques to enhance face recognition
accuracy.

Knowledge Streams
Data Science with Machine Learning Trainee
October 2023 - February 2024 (5 months)
Pakistan

I've had the fantastic opportunity to be a Trainee in Data Science with Machine
Learning, and I've also taken on roles such as Sales Executive and member
of the B2B team. Working as a Sales Executive allowed me to interact with
student customers, while my B2B role had me communicating with CEOs
and HR managers from various top companies. These experiences were

invaluable, greatly improving my communication skills and bolstering my technical knowledge.

Mentorness
Machine Learning Intern
December 2023 - January 2024 (2 months)
Ahmedabad, Gujarat, India

Prodigy InfoTech
Data Science Intern
December 2023 - December 2023 (1 month)
India

Fiverr
Data Analyst
September 2021 - August 2023 (2 years)
Lahore, Punjab, Pakistan
